Greetings to the Members of the Class of 2019!

We believe that the primary objective of a Harvard College education is to foster your intellectual, social, and personal growth and transformation. This begins during your orientation known as Opening Days—the purpose of which is to welcome and prepare you for life as a college student and a member of this community. We want you to know that this is your Harvard—it’s where you belong!

Through Opening Days, you should:

• Get to know your academic, residential, and Peer Advising Fellows (PAFs);
• Understand the purpose of a liberal arts education;
• Learn about the academic offerings and identify the subjects you want to explore;
• Consider the Honor Code and how you can help uphold integrity as a fundamental value;
• Understand more broadly what is expected of you as a member of the community;
• Gain familiarity with the opportunities for learning outside the classroom, including extracurriculars;
• Start to feel at home personally and socially;
• Reflect on the opportunities and responsibilities that come with living in a diverse community;
• Think about how to make good choices about your health, safety, and well-being;
• Get to know the resources and campus services that are intended to support you and enrich your experience;
• Learn your way around campus; and,
• Discover an appreciation for the values, traditions, and history of Harvard.

I urge you to read this entire booklet and to carry it throughout Opening Days. In particular, take note of the events that are marked by a “required” icon. **These events are required of you.** Other activities are highly recommended for you because they will help you to be prepared and feel connected. The full schedule is also available online on the FDO website (www.fdo.fas.harvard.edu) and via the College app.

In the past, some first-years have expressed surprise that the “regular year” does not get off to a faster start. Our response is that we want you to have good information before you begin attending classes, and want your final course selections to be made wisely and to set you up for an exciting term. There are all sorts of people eager to help you. Please don’t hold back. And remember that the students who report the greatest satisfaction with their undergraduate experience talk about the balance of their commitments and a feeling of being connected. These take time to develop. Be patient, and have fun with the exploration that begins during Opening Days.

Any general inquiries about orientation should be directed to the Freshman Dean’s Office, 6 Prescott Street, fdo@fas.harvard.edu, 617-495-1574. We are open from 9 am-5 pm on weekdays; you may also visit our website at www.fdo.fas.harvard.edu.

We look forward to getting to know you!

Sincerely,

Tom Dingman
Dean of Freshmen
IMPORTANT NOTES

Registration and Course Enrollment

Registration at Harvard does not mean signing up for courses. Rather, it refers to “signing in” with the College online, making sure that all of your personal information and data are accurate in your records. You may register at any time between Monday, August 17 and 11:59 pm on Tuesday, September 1. You will receive an email from the Registrar’s Office with a link to online registration at my.harvard.edu.

During registration, you will be asked to verify and update your directory and personal information, to read the Harvard College Honor Code and sign your name to indicate your awareness of and your adherence to it, and to certify that you have reviewed a series of documents including Harvard College’s alcohol and drug policy, voter registration information, and substance abuse laws. The actual registration process can be accomplished in a few minutes, but we recommend that you leave more time to thoroughly read through the documents provided. You may also print them out.

You may register at any time between Monday, August 17 and 11:59 pm on Tuesday, September 1. You will receive an email from the Registrar’s Office with a link to online registration at my.harvard.edu.

After registration is complete, you will need to enroll in courses via an online Study Card. Your online Study Card lists the courses you will be taking during a given semester. You will create and submit your Study Card through my.harvard.edu. In order to gain permission to enroll in courses, you must first have a discussion about your interests and placement recommendations with your academic adviser. Who will then acknowledge, in my.harvard.edu, that you have had your advising conversation. After this point, assuming there are no other holds on your record, you may submit courses for enrollment. All courses must be submitted by Thursday, September 10.

Accessible Education Office (AEO)

The Accessible Education Office (AEO) serves as the central, confidential campus resource for Harvard College students with documented medical, mental health, ADHD, and learning disabilities. If you have been diagnosed with a disability and have not yet registered with AEO, it is important to contact them as soon as possible. You are encouraged to contact the AEO with any questions regarding accessible transportation, housing, adaptive technology, and other academic adjustments consistent with University policies.

Please note that nearly all college buildings used during Opening Days are accessible, though in some cases use of an alternate entrance may be necessary. If you have any questions about accessibility, please contact the AEO via phone (617-496-8707) or email (aeo@fas.harvard.edu).

For further information about the AEO, please visit their website at www.aeo.fas.harvard.edu.
Placement Tests

One of the tools that you and your academic adviser will rely on as you choose your courses will be the results of online and on-campus placement exams. The online placement exams were administered over the summer; the on-campus placement exams are administered during Opening Days.

While your exam results do not become a formal part of your transcript, they will be analyzed by the appropriate academic departments, which will then make recommendations about which courses you are prepared to take.

For more information about the online and on-campus placement exams, including a list of exams, please see: placement-info.fas.harvard.edu

Freshman Academic Advising

The name and contact information for your academic adviser can be found in the advising tab when you are logged into my.harvard.edu. Your academic adviser is either your Proctor or a non-resident member of the College’s faculty or administration.

You will have your first opportunity to meet your academic adviser for lunch on Thursday, August 27. Your academic adviser will be in contact with you to arrange this meeting.

On Thursday, August 27, at 8:00 pm all freshmen will meet with their Proctors and PAFs to review basic academic information that will be helpful in choosing courses for fall term. Please confirm the meeting place and time with your Proctor.

After your initial group meetings with your academic adviser, Proctor, and PAF, and prior to the start of classes, you will need to arrange an individual appointment with your academic adviser to discuss your intellectual and personal interests. Suggested times for these meetings are included in the “Daily Listings”; please be sure to confirm your own specific meeting place and time with your academic adviser.

Throughout Opening Days, you will also have the opportunity to consult with faculty members about courses that interest you or about concentrations you may be considering. From presentations on the purpose of a liberal education to academic fairs focusing on the study of the Arts and Humanities, Social Sciences, Life Sciences, and Engineering and Applied Sciences at Harvard, you will be introduced to compelling issues and questions that will engage you for the next four years. See the “Daily Listings” for more information on the various advising events during Opening Days.

Through the Gates

Through the Gates is an excursion program managed and operated by the FDO. It is designed to enable students to pass “through the gates” of Harvard Yard and become more familiar with greater Boston and Cambridge, while also fostering interaction among students, faculty, peers, and the wider community. This year’s program will begin with several excursions, starting in early September, and continuing throughout the fall.

To access the latest listings and information, and to sign-up for Through the Gates, please visit the FDO website for the Class of 2019: www.fdo.fas.harvard.edu.
Extended Orientation

It is our hope that your first year at Harvard will be an exciting, challenging, and safe experience. To better prepare you for some of the choices you may face and situations you may encounter, all students are required to participate in two workshops. These workshops are designed to give you a chance to talk with your peers and upperclass students about two important issues: 1) sex and gender-based violence, and 2) alcohol and other substances. The workshops are interactive and build upon programs addressing both topics (Harvard Proof and Speak About It). During the workshops, you will learn about the resources that the Office of Sexual Assault Prevention and Response (OSAPR) and the Office of Alcohol and Other Drug Services (AODS) provide, and will meet student leaders from both groups. These workshops are mandatory. Your Proctor will tell you the date, times, and locations for the workshops for your entryway.

All workshops will run between Saturday, August 29 and Wednesday, September 2.

International Students

All international students must report with their passports and visa documents to the Harvard International Office (HIO), Room 864, Smith Campus Center, as soon as possible after arrival in Cambridge and no later than 30 days after the start date on their I-20 immigration document. This requirement does not apply to U.S. permanent residents or dual citizens with U.S. citizenship. Participants in the Freshman International Program (FIP) will have had the opportunity to complete HIO registration during FIP.

Note that international freshmen who did not participate in FIP are expected to attend the orientation for international students on Wednesday, August 26 in the Straus Common Room.

Advanced Standing

If you completed a series of college-level examinations in high school (e.g. AP tests, IB exams, A-levels), you may be eligible for Advanced Standing. Students interested in Advanced Standing will need to submit their credentials through official channels. If you are eligible for Advanced Standing, your status should be indicated in the “Placement and Test Scores” section of my.harvard.edu.

For questions about Advanced Standing visit the Office of Undergraduate Education website (oue.fas.harvard.edu); to meet with an adviser, contact Noël Bisson, Associate Dean of Undergraduate Education, or Anne Marie Sousa, Director of Academic Projects, at oue@fas.harvard.edu.

This examination is a prerequisite to participation in any practice or tryout sessions, or the issuing of equipment. Freshmen who will participate in intramurals or club sports do not need this exam. It is important that participants in varsity and junior varsity sports report to the University Health Services in the Smith Campus Center (formerly Holyoke Center) for their physical exams according to the following schedule. Please use the entrance closest to the Arcade to enter the Health Service. Historically, the wait time is shorter earlier in the day. Phoebe Carrai, Conductor
Sarah Darling ’02, Assistant Conductor

Travel back in time with the Harvard Baroque Chamber Orchestra – a group dedicated to bringing back to life the vivid rhetoric and dancing rhythms of baroque music! Harvard Baroque is led from within by renowned baroque cellist Phoebe Carrai and violinist Sarah Darling ’02. We rehearse once a week, playing on equipment borrowed from Harvard’s Early Instrument Collection. Harvard Baroque performs two concerts of orchestral music annually, plus evenings of chamber music. No prior experience with early instruments is necessary, only a love of music and a willingness to play well with others while experimenting with new sounds! For more information email sarahdarling@post.harvard.edu or visit: www.harvardbaroque.org.

AUDITIONS: Auditions will be held at The Memorial Church.

The Bach Society Orchestra is Harvard’s oldest and premier chamber orchestra. Popularly known as BachSoc, the orchestra is staffed, managed, and conducted entirely by students, and is the oldest student-run orchestra on campus. BachSoc is committed to the highest standards of music making and sports a long line of distinguished alumni musicians and conductors, including John C. Adams ’69, Alan T. Gilbert ’89, and Yo-Yo Ma ’76. Known for its varied programming and extremely close-knit community, the orchestra is an integral part of the Harvard musical scene. Music Director Sasha Scolnik-Brower will lead the Bach Society Orchestra in its 61st season. For information about our season’s repertoire, audition requirements, and more, please visit our website.
