Introduction & Welcome

Greetings Members of the Class of 2022!

The primary objective of a Harvard College education is to foster your intellectual, social, and personal growth and transformation. This begins during your orientation, what we call Opening Days. We want you to know that this is your Harvard. It’s where you belong!

Through Opening Days, you should:

• Get to know your academic adviser, proctor, and peer advising fellows;
• Understand the purpose of a liberal arts education;
• Learn about the academic offerings and identify the subjects you want to explore;
• Consider the honor code and how you can help uphold integrity as a fundamental value;
• Understand more broadly what is expected of you as a member of the community;
• Gain familiarity with the opportunities for learning outside the classroom, including co-curricular activities;
• Start to feel at home personally and socially;
• Reflect on the opportunities and responsibilities that come with living in a diverse community;
• Think about how to make good choices about your health, safety, and well-being;
• Get to know the resources and campus services that are intended to support you and enrich your experience;
• Learn your way around campus; and,
• Discover the values, traditions, and history of Harvard.

We urge you to read this entire schedule and to carry it throughout Opening Days. Take note of the events that are shaded in red and marked with an exclamation icon. They are required of you. Other activities are highly recommended for you because they will help you to be prepared and feel connected. The full schedule is also available on the Dean of Student’s Office website (fdo.fas.harvard.edu) and for download via the Omni app.

In the past, some first-years have expressed surprise that the “regular year” does not get off to a faster start. Our response is that we want you to have good information before you begin attending classes, and want your final course selections to be made wisely. All sorts of people are eager to help you, so please ask questions and utilize the help that is available. The students who report the greatest satisfaction with their undergraduate experience talk about the balance of their commitments and a feeling of being connected. These take time to develop. Be patient, and have fun with the exploration that begins during Opening Days.

Sincerely,

Anne Marie Sousa
Director of the Advising Programs Office (APO)

Katie Steele
Senior Director of Student Engagement and Leadership
Dean of Students Office (DSO)
Important Notes

FAMILY ACTIVITIES ON MOVE-IN DAY
The Office of Parent and Family Programs, the Harvard College
Fund Parent Engagement Programs Office, and the DSO will
co-host activities for families of incoming students on Monday,
August 27. Details are available at parents.fas.harvard.edu. The
events will include a resources fair, a welcome lounge, a welcome by
the Dean of the College, tours, and an informal family farewell at the
end of the day.

CHECK-IN & COURSE ENROLLMENT
Check-in at Harvard refers to “signing in” with the College online by
making sure all of your personal information and data are accurate
in your records. You may check in at any time between Monday,
August 20 and 11:59 pm on Tuesday, September 4. You will
receive an email from the Registrar’s Office with a link to check in at
my.harvard.edu.

During check-in, you will be asked to verify and update your
directory and personal information, to read the Harvard College
Honor Code and sign your name to indicate your awareness of
and your adherence to it, and to certify that you have reviewed a
series of documents including Harvard College’s alcohol and drug
policy, voter registration information, and substance abuse laws.
The actual check-in process can be accomplished in a few minutes,
but we recommend that you leave more time to thoroughly read
through the documents provided. You may also print them out.

After check-in, and after courses begin, you will need to
electronically enroll in courses. Your online Crimson Cart lists the
courses you will be taking during a given semester. You will create
and submit your Crimson Cart through my.harvard.edu. In order
to submit your Crimson Cart, you must first have a discussion
about your interests and placement recommendations with your
academic adviser who will then acknowledge, in my.harvard.edu,
that you have had your advising conversation. After this point,
assuming there are no other holds on your record, you may submit
courses for enrollment. All courses must be submitted by 11:59 pm
on Wednesday, September 12.

INTERNATIONAL STUDENTS
All international students must report with their passports and
visa documents to the Harvard International Office (HIO), Room
864, Smith Campus Center, as soon as possible after arrival in
Cambridge and no later than 30 days after the start date
on their I-20 immigration document. This requirement does
not apply to U.S. permanent residents or dual citizens with U.S.
citizenship. Participants in the First-Year International Program
(FIP) will have had the opportunity to complete HIO registration
during FIP.

Note that international first-years who did not participate in FIP are
expected to attend the orientation for international students on
Wednesday, August 29 at 11:45 am in Straus Common Room in
Straus Hall.
FIRST-YEAR ACADEMIC ADVISING
The name and contact information for your academic adviser can be found in the Advising Network tab when you are logged into my.harvard.edu. Your academic adviser is either your proctor or a non-resident member of Harvard’s faculty or administration.

Your first opportunity to meet your academic adviser will be over lunch on Tuesday, August 28. Your academic adviser will contact you to arrange this meeting. Following lunch with your adviser, you are encouraged to attend Pathways into Harvard Academics: An Overview at 2 pm to hear a general overview of the curriculum by Deans of Undergraduate Education and faculty members from each division.

On Wednesday, August 29, at 7:30 pm all first-year students will meet with their proctors and peer advising fellows (PAFs) to review basic academic information that will be helpful in choosing courses for fall term. Please confirm the meeting place with your proctor.

After your initial meetings with your academic adviser, proctor, and PAF, and prior to the start of classes, you will need to arrange an individual appointment with your academic adviser to discuss your intellectual and personal interests. Suggested times for these meetings are included in the “Daily Listings;” please be sure to confirm your own specific meeting place and time with your academic adviser.

Throughout Opening Days, you will also have the opportunity to consult with faculty members about courses that interest you or about concentrations you may be considering. From presentations on the purpose of a liberal arts education to academic fairs featuring all academic departments at Harvard, you will be introduced to compelling issues and questions that will engage you for the next four years. See the “Daily Listings” for more information on the various advising events during Opening Days.

PLACEMENT EXAMS
One of the tools that you and your academic adviser will rely on as you choose your courses will be the results of online and on-campus placement exams. The online placement exams in writing, math, sciences, and some languages were administered over the summer. On-campus placement exams in additional languages and music are administered during Opening Days.

Your exam results are available in my.harvard.edu in the Reports and Documents section in the Placement and Test Scores report. You are strongly encouraged to discuss your placement recommendations with your academic adviser as you explore courses to take.

For more information about placement exams, including a list of exams, visit placement-info.fas.harvard.edu.
ADVANCED STANDING
If you completed a series of college-level examinations in high school (e.g. AP tests, IB exams, A-levels), you may be eligible for Advanced Standing. Students interested in Advanced Standing will need to submit their credentials through official channels. If you are eligible for Advanced Standing, your status will be indicated in the Reports and Documents section of my.harvard.edu.

For questions about Advanced Standing visit the Office of Undergraduate Education website (oue.fas.harvard.edu); to meet with an adviser, email oue@fas.harvard.edu.

WELLBEING WORKSHOPS
The Office of Sexual Assault Prevention and Response (OSAPR) and the Office of Alcohol and Other Drug Services (AODS) welcomes you to Wellbeing Workshops. It is our hope that your first year at Harvard will be an exciting, challenging, and safe experience. To provide a foundation for our community values, all students are required to participate in two workshops. These discussions also offer a space to talk with other first years and student leaders about consent, healthy relationships, alcohol, and other substances.

During these highly interactive workshops, you will meet peer educators from the Consent Advocates and Relationship Educators (CARE) and Drug and Alcohol Peer Advisors (DAPA) that build upon earlier content from Speak About It and Harvard Proof. These workshops are an important part of your orientation. Your proctor will give you more information about the dates, times, and locations for your entryway.

ACCESSIBLE EDUCATION OFFICE
The Accessible Education Office (AEO) serves as the central campus resource for students who have disability-related accessibility needs at Harvard College. If you have an accommodation need and haven’t connected with the AEO already, please do so as soon as possible.

The accommodation process for students with disabilities is a collaborative one, which begins with students taking the lead in self-disclosing their needs to AEO in a timely manner and providing requested documentation that will assist in determining reasonable accommodations, which include academic adjustments, housing, accessible transportation, and assistive technology. A professional staff member will then reach out to schedule a meeting to discuss together the impact of potentially inaccessible environments and course elements that may require academic adjustments or the use of auxiliary aids.

Please note that nearly all College buildings used during Opening Days are accessible, though in some cases use of an alternate entrance may be necessary. If you have questions about accessibility, please contact the AEO via phone (617.496.8707) or email (aeo@fas.harvard.edu). For further information about the AEO, please see aeo.fas.harvard.edu.
